

## **Holiday Plans**

Many RUSD families schedule extended trips during the holiday seasons (Thanksgiving, Winter Break, etc.) meaning students are missing classes when school is in session. Class time is important and missing class time should be avoided if possible. It may not be possible for students to catch up on all the missed learning when he/she returns so we ask parents to minimize days missed. If you must pull your children from school, please give teachers at least 2 weeks prior notification so make up assignments can be arranged. When students return from vacation all missed work will be expected back in a timely manner.

## **Residency Requirements**

We recently have heard rumors that some RUSD parents falsified their residency information and enrolled students who do not actually live in the RUSD school boundaries. The Reed Union School District defines residency as the address at which the parent / guardian and student sleep during the school week. RUSD has a very clear policy regarding residency and falsifying proof of residency within the District boundaries is reason for removal from the District. If you know or have credible information that students are not actual residents of the Reed Union School District, please e-mail the District with this information. RUSD will use legal and investigative support to determine if violations of this policy are actually occurring. We encourage parents to report concerns either to the School or District Office, or to the Feedback or Questions link on the District Website. We appreciate your assistance and cooperation in this important matter.
