Transportation Task Force

Since the first day of school a few of the bus routes to and from school have been late getting to their destinations. After careful analysis, we have concluded the late buses are being caused by traffic congestion. We have more students in RUSD this year than anytime in the past 30 years so there is increased traffic at peak travel times immediately before and after school.

In the coming weeks, we are participating in a "Tiburon Traffic Task Force" to try to problem solve ways to reduce traffic congestion on Tiburon Boulevard during these peak times. Please consider allowing your children to walk to and from school if you live close enough to schools. Thank you.

Whooping Cough (Pertussis) Requirements Met 100%

We are happy to announce that all Del Mar 7th & 8th graders have provided proof of immunization for Pertussis vaccinations so we are 100% compliant! Thank you.

Strategic Action Plans Focus on Vision of RUSD Graduate

Last spring a cross-functional team of teachers, parents, administrators and community leaders developed the "Vision of an RUSD Graduate" to guide the work of the District for the next five years and beyond. This vision requires in every subject matter, at every grade level, instruction and learning that must include commitment to a knowledge core, high demands on thinking, and active use of knowledge. Rigorous standards aligned to the new Common Core Curriculum for Math and English/Language Arts which has been adopted by California and 44 other states will be the backbone of our immediate work.

A staff team met last week to outline the specific actions we will deploy this year to work on our vision. Parents who volunteered to help develop the Action Plans will be contacted this week by personal e-mail regarding next steps.
