

Teen Depression and Suicide Prevention

It can be easy to miss the signs of depression or misinterpret a student's behavior as symptomatic of other issues like substance abuse. Behaviors that teachers see in their students can be indicators of a deeper concern.

This workshop will provide resources to assist teachers and other school personnel in identification of depression in teens and suicide prevention strategies.

Workshop topics include:

- Early Warning Signs
- Referral Procedures
- Available Resources
- Follow-up Support Services

A distinguished panel of educators and professionals will lead discussion and answer questions.
