The Belvedere-Tiburon Library offers Live Homework Help, an online tutoring service from Tutor.com that connects students to expert tutors in math, science, social studies and English via the Internet. Spanish-speaking tutors are available in math and science.

Free Help in Core Subjects

This free service allows students to connect to an expert tutor either from the Belvedere-Tiburon Library or from their home PC or Mac computer with a library card seven days a week, from 3:00 p.m. to 10:00 p.m. (Sunday through Thursday, 3:00 p.m to 7:00 p.m. for Spanish tutors), and receive one-to-one homework help from a live tutor via the Internet. Live Homework Help is easy to use. Children and teens simply go to the library's Web site, click on the Live Homework Help link and then enter their grade level and the subject they need help in. In just a few minutes, students are connected to a tutor in an Online Classroom for help in math (elementary, algebra, geometry, trigonometry and calculus), science (elementary, earth science, biology, chemistry, physics), social studies (American History, World History, Political Science and more), and English (spelling, grammar, essay writing, book reports).

Learn from Expert Tutors in an Online Classroom

Students and tutors can review specific homework questions, as well as subject-specific concepts using features such as controlled chat, an interactive white board and shared Web browsing in the Online Classroom. Tutors can type math equations using a special math tool, share educational Web sites and much more for a rewarding learning experience. All tutors are certified teachers, college professors, professional tutors or graduate school students from across the country. Every tutor has completed a third party background check and a comprehensive training program.
