MATH: A SUBJECT THAT REALLY COUNTS!

Great to see you at BTS Night!

We hope you liked getting to know your child's math teacher and learning about the curriculum. For those of you that did not make it, we also went over our department's policies for homework and retakes. To review the HW & retake policies, as well as other department policies please visit:

<http://rusdmath.weebly.com/policies>

Lost and Found!

If your child has lost (or eventually DOES lose) their math workbook, there are a few things that can be done.

There is a link to the online book found on our website, lessons can be printed or photocopied, or the student can do work on paper.

Another option is to purchase a replacement book in the office at a cost of \$15. Checks to RUSD.

UPCOMING "STUFF"!

Math Help! Anytime – Just ask!

End of Trimester:
November 1st

Math Club: Thursday mornings at 7:35 in Room 2! Come one, come all for challenge and enrichment!

Assessments/Projects:

Please check the calendars posted on the RUSDMATH.weebly.com site

TIPS for helping your child with math!

#1 - Please check your student's iCal, grade level WEEBLY site, planner, or GOOGLE calendar regularly, for homework assignments, project due dates and test announcements. Whether 8th graders or brand new to middle school (or somewhere in between), that ALONE will greatly help to them keep on track! Hopefully, soon they'll do it all on their own!
