

A Message From the Office of the Superintendent

School Closures to Continue Through May 1, 2020 from Superintendent Dr. Nancy Lynch March 25, 2020

Dear Parents and Guardians,

The important press release below notifies families that schools will continue using the distance learning model through May 1, 2020 as schools will continue to be closed. Through the coordinated effort of six Bay Area counties to stop the spread of COVID-19, we are all working together to protect every member of our community.

Earlier today District elementary parents received an email notifying them that classroom iPads will be available for pick up over the next two days in an effort to increase our support for families in distance learning. Our teachers and principals are working daily to make adjustments to the instructional plans to better meet the needs of students during this difficult period of the Stay at Home order, and we will begin to augment the academic program with more social-emotional lessons and activities for students in the coming weeks. We also recognize that our primary age children are needing more support to complete lessons at home, and the instructional plans are being modified to improve this situation.

Please know that the use of school fields and playgrounds is not permitted during the Stay at Home order to consistently promote social distancing. If you are out for a walk and come to toss a ball around with your family on one of the fields, that is acceptable. However gathering with other families is not allowed as this defeats the purpose of our community-wide efforts to flatten the curve of exposure.

Thank you for your continued support and patience at this time. We will all get through this situation together, and will have learned many new life lessons in the process.

Warm regards,

Nancy Lynch, Ed.D.
Superintendent
Reed Union School District

Bay Area School Closures and Student Dismissals From Regular School Attendance To Be Extended Through May 1, 2020

San Rafael, CA - Marin County has aligned with seven Bay Area county health officers, and county superintendents to make a unified, regional decision to extend school closures and student dismissals from regular school attendance through May 1, 2020 to slow the spread of novel coronavirus (COVID-19) to the maximum extent. The safety and wellness of students, school personnel, and the community are the highest priorities of all schools and districts in these six counties.

Building on the regional coordination the Bay Area jurisdictions took on March 16, 2020 in issuing Health Officer orders requiring all residents to shelter in place, the following Bay Area County Offices of Education have been working together over the last several weeks to align strategies and practices during this unprecedented time for public education: Alameda, Contra Costa, Marin, San Francisco, San Mateo and Santa Clara.

"To maintain a consistent and coordinated response regionally, Public Health officials and school leaders have determined that extending the suspension of classroom learning is vital to the safety and well-being of our students and community," said Mary Jane Burke, Marin County Superintendent of Schools. "This unified decision is a reflection of the importance of our mitigation efforts and to help our families plan for the longer term."

With the support and collaboration of the Public Health Officers in the respective jurisdictions, the County Superintendents of Schools, based on conversations with district leaders, recognized the need to extend the period of school closures and student dismissals through May 1, 2020. If further extensions become necessary, those decisions and announcements will be made at the appropriate time.

School facilities may remain open to staff for the purposes of performing tasks deemed essential by the school district and the county offices of education. Education will continue through flexible learning, meals will continue to be provided and, where possible, childcare may be arranged.

"As we work to reduce the spread of the COVID-19 virus, any efforts to reduce community exposure will help ease the burden on our healthcare system and protect those at greatest risk," said Main County Public Health Officer Dr. Matt Willis. "This unified effort should serve as a model for our state."

The best way for the public to further stop the spread of germs in our community is to practice the following steps:

- **Abide by the current shelter in place order, limiting activity to only essential needs. When completing essential activity, keep your distance from others, especially anyone showing symptoms of a cold;**
- **Wash your hands *frequently* with soap and water for at least 20 seconds, especially before eating, after blowing your nose, coughing, or sneezing;**
- **Use an alcohol-based hand sanitizer when soap and water is not available;**
- **Cover your cough or sneeze with a tissue or crook of your elbow (not your hands). If you use a tissue, throw it away and wash your hands afterward;**
- **Avoid touching your face;**
- **Clean and disinfect frequently touched objects and surfaces using a regular household cleaning spray or wipe;**
