Checklist Indicating Complete Application

- ✓ 8/12 Updated SSSPP Template
- ✓ Contact Information Included
- ✓ Task force Members Named
- ✓ Primary and Secondary Liaison Contact Information
- ✓ Signed by Administrator

Principal: Brian Lynch
Assistant Principal: Ann-Marie Skaggs

COVID-19 School Site-Specific Protection Plan Guidance & Template

Guidance for Developing Your School's COVID-19 School Site-Specific Protection Plan (SSSPP)

1. Establish a multi-disciplinary Task Force (ie, teachers, custodians, school secretaries, para-educators, parents, students, and administrators) to develop and support this School Site-Specific Protection Plan who will meet regularly to monitor Public Health Information and adjust the plan based on input from all stakeholders as needed.
2. Perform a school site walkthrough with the Task Force of your campus, classrooms, multi-use rooms, and office spaces and use the protocols, guidance and best practices detailed in the [Public Health Guided Return to Site-Based Classroom Instruction](#) as a guide for conducting your assessment.
3. Develop and finalize your SSSPP and train staff before site-based classroom instruction begins
4. Use the template below to create your own SSSPP by filling in the required details, based on your individual school site/school or district office, to mitigate the transmission of COVID-19, under the guidance of the Public Health Officer.
5. Finalize your SSSPP to distribute to staff and families and post on your school website. You may also post a copy at your school or office at a visible location, at or near the main entrance where students, staff and visitors can easily review it without touching the document, or post a Certificate of Completion (included below) with information on how to review the plan in its entirety online.
6. Post signs at each of the primary staff and student entrances to inform all students, staff and visitors that they should:
 - Not enter the facility if they have COVID-19 symptoms;
 - Maintain a minimum six-foot distance from one another;
 - Sneeze and cough into a cloth or tissue or, if not available, into one's elbow
 - Wear face coverings, as appropriate; and
 - Be sure not to shake hands or engage in any unnecessary physical contact

Tools for Developing Your School Site-Specific Protection Plan

1. COVID-19 School Site-Specific Protection Plan (SSSPP) Template

The Marin County Office of Education is providing this template that can be used by any school or district in Marin to create their own School Site-Specific Protection Plan (SSSPP). It contains all of the standard content already written for you to reopen your school or school office and prompts you to “fill in the blank” where unique information is required in order to complete your SSSPP. The template has been reviewed and supported by Marin County’s Public Health Officer.

2. School Specific Best Practices

The MCOE Rethinking Schools Task Force is monitoring updated guidance from the Center for Disease Control, the California Department of Public Health, the California Department of Education, and Marin County Public Health to support and promote emerging best practices to share with the school community in Marin. These best practices are based on alignment with local, state and federal guidelines in coordination with the county’s Public Health Officer.

Date: 8/26/2020

Principal: Brian Lynch

Assistant Principal: Ann-Marie Skaggs

Specific Control Measures and Screenings

Please provide as much detail as possible for how you intend to implement each guideline. If you need additional space, please provide an attachment.

1. All activities are consistent with, and will adjust to, changing applicable state and local Public Health Orders. A multi-disciplinary Task Force has been established to develop and support this School Site- Specific Protection Plan, that meets regularly to monitor and adjust the plan based on input from all stakeholders.

The committee was initially formed on June 23, 2020 and will continue to meet on the first Wednesday of each month, or more frequently as needed to monitor and adjust plans as indicated based on input from staff, students and parents.

2. Health and safety practices and protocols are in place, including hand washing, appropriate face coverings, and access to essential protective equipment, and up to date student and staff attendance tracking.

Students and staff will follow hand washing protocols, schedules and procedures in which they have been instructed. Ten portable handwashing stations are distributed throughout each campus and schedules will be developed for cohorts to use them in addition to the sinks in their classrooms/restrooms. Signage to remind individuals to wash hands for at least 20 seconds and maintain physical distancing. Face coverings will be used at all times by staff and students, and they will be trained accordingly. The district will provide each person with 2 cloth face coverings and have disposable face coverings available for individuals who arrive at school without one. Training will be provided to all staff and students in personal safety practices. Staff may use face shields with a drape when instructing students from a distance of 6 feet or greater. Teachers will use a face mask when physical distance is less than 6 feet, or they are in outdoor areas. Access to approved cleaning supplies will be in all classrooms and workstations. Well stocked and available PPE/EPE will be housed at each school. Up to date student and staff attendance tracking (ALMA for students; Frontline for staff)

Principal: Brian Lynch
Assistant Principal: Ann-Marie Skaggs

3. Training is provided to all staff, students and families reinforcing the importance of health and safety practices and protocols.

The Superintendent and district nurses provided training to all staff on August 24 in safety protocols necessary to reopen schools. The District will provide ongoing training sessions during all reopening phases. Attendance in this meeting was tracked by supervisors so that any employee who missed the training would be provided the information and training prior to the opening of schools. The nurses have developed a COVID-19 parent handbook that will be sent to families through *Actionaly* to read and sign acknowledgement confirmation. Administration and staff are developing videos to provide to students prior to schools reopening, additionally teachers and staff will provide instruction to students when they return in a hybrid model.

4. A primary and secondary point of contact are established, identified, and trained at each school site to direct questions or concerns around practices, protocols, or potential exposure. These points of contact will also serve as a liaison to Public Health and contact information is identified in the School Site-Specific Protection Plan. (Points of Contact listed above).

Brian Lynch, Principal, is the primary point of contact for Public Health. Ann-Marie Skaggs, Assistant Principal, is the secondary point of contact for Public Health. These individuals received training from Public Health on information and requirements of individuals in this role provided by Dr. Lisa Santora.

5. Plans are implemented for intensified cleaning and disinfecting, including training for staff and access to cleaning supplies and essential protective equipment, and regular disinfecting of frequently touched surfaces.

Facilities cleaning protocols/schedules are implemented. Facilities and Maintenance staff have been trained in COVID-19 cleaning procedures and protocols through Keenan and Associates. Cleaning supplies are well stocked and will be available in classrooms and throughout campus when students return to campus. All disinfecting chemicals have been approved by the CDC for use against COVID-19. Del Mar has 2 electrostatic sprayers for disinfecting classrooms and offices at the end of each day. Enhanced cleaning machines have been purchased for each school to disinfect

Principal: Brian Lynch

Assistant Principal: Ann-Marie Skaggs

restrooms. Del Mar has 5 touchless hand sanitizer dispensers on stands. Hand dryers have been replaced in restrooms at Del Mar, and paper towel dispensers have been replaced to accommodate touchless access. Foot pulls have been installed on doors to provide for a touchless option when opening doors. Two custodians will be assigned to days at each school to accommodate increased disinfecting/cleaning throughout the day. The third custodian will begin their shift earlier. Staff will be trained on proper disinfection guidelines. Staff are expected to disinfect shared high touch objects after use (refrigerator, microwave, etc.)

6. Health screening for students and staff are conducted as advised and updated by Public Health. On July 23, 2020 the Centers for Disease Control and Prevention provided updated guidance on screening K-12 students emphasizing that parents and caregivers must monitor their children for signs of infectious illness every day at home, and universal symptom screening for K-12 students is not required. Staff should conduct daily health screening self assessment, which may be completed through an online survey. (links: [Sample Daily Health Screening for Students](#) and [Sample Daily Health Screening for Staff](#), and [QR Code Check-In System Instructions](#)).

Daily home health screening will be conducted online through an email sent to staff and parents each day through our *Actionaly* communication system. Any staff member or student that does not complete the assessment prior to arrival at school, will be asked to do so immediately and screened for symptoms.

7. Staff and students who are sick are expected to stay home and an isolation area is identified for students who begin to exhibit symptoms during the school day, until they can be picked up.
Describe placement of designated Isolation Area:

Students and staff who are ill are expected to stay home and will not be allowed on campus. Protocols have been established and communicated by our Nurses in collaboration with Marin Public Health to provide guidance to parents about when their children are ill, when they need to stay at home, and when they can return to school. The school site isolation area is located in room M-2. At Del Mar, a designated quarantine area for individuals who begin to exhibit symptoms of COVID-19 has been established in the gym lobby and its office. A parent or emergency contact will be provided information on picking up the child while remaining in their car. Students

Principal: Brian Lynch
Assistant Principal: Ann-Marie Skaggs

must be picked up from school within 30 minutes. The student will be walked to the caregiver's car to reduce exposure.

8. Schools and districts will cooperate with Public Health to support testing strategies to mitigate transmission of COVID-19, including testing for staff at the beginning of the school year, and then no less than once every two months. This may include testing of students with appropriate parental permissions obtained in advance. (Identify testing vendors, if applicable)

Staff testing will follow Marin County COVID-19 protocols and be tested prior to the start of the site-based classroom instruction, and then no less than every two months thereafter. Students may be tested with appropriate parental permissions obtained in advance. Testing will be provided through Marin Public Health Department, PMH laboratories, Color and Kaiser.

9. Protocols, actions and template communications are in place for the following COVID-19 related scenarios (link: [Marin County Public Health Protocols](#) & [Communication Templates](#) for each scenario):
- A student or staff member either exhibits COVID-19 symptoms or has a temperature of 100.4 or above.
 - A family member or someone in close contact with a student or staff member tests positive for COVID-19.
 - A student or staff member tests positive for COVID-19.
 - A student or staff member tests negative for COVID-19 after symptoms or confirmed close contact.

This document is embedded into our Safely Reopening Schools Document that compliments this document including additional information to staff and families. This template was reviewed with staff as part of their training in safety protocols. This document will be shared broadly with staff and our community.

10. Where practicable, physical distancing of six feet is maintained between adults, as well as between adults and students; four feet distance is permissible between students within a classroom or instructional area where requirements herein are in practice.

All students will have a designated seating area with floor markings indicating where

Principal: Brian Lynch
Assistant Principal: Ann-Marie Skaggs

desks and tables should be located. Tables will be fitted with a plexiglass protective barrier (if desks are not used) to separate students sharing the table. Each cohort will have a designated outdoor learning area as outdoor space for instructional purposes will be maximized. Furniture is spaced to adhere to physical distancing guidelines for the District's approved split cohort hybrid model.

11. For elementary schools, stable classroom cohorts (up to standard class size at each respective grade level) are maintained throughout each school day, and through each quarter or semester, with an assigned primary cohort teacher, and systems are in place to prevent the mixing of classroom cohorts.

N/A

12. For middle and high schools, larger cohorts made up of students from more than one classroom may be arranged as long as accurate attendance data for students and adults is maintained on a daily basis while avoiding schoolwide mixing of students and staff.

Students are assigned to a stable classroom cohort that will be maintained throughout the day. Students will attend break and lunch with their class and not mix with students in other classrooms. Teachers, including specialists, will be able to rotate into the cohorts they serve (in-person or virtually) while students remain in classrooms. Staff and students will sign in and out when entering and leaving classrooms to support contact tracing.

13. Where practicable, desks are arranged facing forward to minimize face to face proximity between students.

All classrooms with desks will face forward. In classrooms that have maintained 6 foot tables, plexiglass will be installed to separate students on each side of the table.

14. School staff are permitted to visit and instruct more than one classroom cohort, following physical distancing and face covering protocols, and must document/record visits to classrooms that are not identified as their primary classroom cohort.

Principal: Brian Lynch
Assistant Principal: Ann-Marie Skaggs

Teachers and support staff may visit or instruct up to 3 cohorts of students per day. This aligns to current Public Health guidance, and is incorporated in the MOU with Reed District Teachers Association, and while Del Mar is in Phase 2 and 3 of our Phases of Reintroduction plan. Teachers visiting more than one class will maintain at least 6 feet distance from students, wear a face covering, wash/disinfect hands prior to entering and leaving the classroom. Teachers, administration and staff will sign in using a QR code by the door with the date and time of their visit to the classroom if they are not the cohort teachers of record.

15. Routes for entry and exit to the campus will be designated for each classroom cohort, using as many entrances/exits as feasible.

A staggered start and dismissal schedule has been created to support physical distancing practices. Cohorts will be assigned to a specific and consistent entry/exit gate. Additional entry/exit locations have been designated at the school. Physical distancing markings will be visible on the ground at all entry/exit gates for each class to line up. The same entry/exit gate will be used at the end of the day when the teacher walks students at dismissal time.

16. Schedules for arrivals, recess and lunch will be strategically coordinated to prevent mixing of classroom cohorts.

Arrivals at school will be staggered with 1/3 of the classes arriving at 8:00, 8:30 and 9:00, and have subsequent staggered dismissal times at Del Mar Middle School. Students are assigned to a stable classroom cohort that will be maintained throughout the day. Students will attend recess and lunch with their class and not mix with students in other classrooms. Recess and lunch will be held on staggered schedules that coincide with school start/dismissal times. All cohorts will use their designated outdoor space for lunch & snack, or in the classroom if there is inclement weather.

17. Congregate movement through hallways will be minimized as much as practicable.

Walkway travel patterns are established throughout the campus to mitigate contact

Principal: Brian Lynch

Assistant Principal: Ann-Marie Skaggs

amongst cohorts. Students remain in their stable classroom throughout the day with the exception of the teacher taking students to their designated break, outdoor learning space or lunch area. Staggered start and dismissal time traffic patterns will adhere to this practice as well. In the case of emergency, safety protocols and procedures will supersede these established travel patterns.

18. Large gatherings (i.e., school assemblies) are currently prohibited.

Large gatherings such as assemblies and field trips are currently prohibited. The school will seek ways to provide virtual assemblies and field trips to students during the time of this restriction.

19. The use of outdoor space for instructional purposes is maximized, shared, and coordinated to ensure students remain in their cohort. Efforts should also be made to maximize fresh airflow in classrooms through existing ventilation systems and opening of windows and doors as much as possible.

Outdoor spaces will be maximized in the following ways: All cohorts will use their designated outdoor space for lunch & snack, or in the classroom during inclement weather or poor air quality. All cohorts will use designated areas for recess. Designated cohort areas may be rotated on a scheduled basis. Windows and doors will remain open as weather permits to ensure adequate ventilation. RUSD HVAC systems meet the criteria recommended for students to return to classroom instruction. Filters will be changed as recommended by CDC. Every classroom and office is equipped with a HEPA air purifier. Circulating fans will be used in all classrooms and shared spaces. Each cohort has a designated outdoor learning area.

20. Use of shared playground equipment will be limited in favor of physical activities that require less contact with surfaces, and shared equipment will be cleaned between uses.

Each cohort will have separate play equipment (i.e. balls and supplies). PE teachers will provide a program that minimizes the use of equipment and teach student games that do not require equipment to play during recess breaks.

Principal: Brian Lynch
Assistant Principal: Ann-Marie Skaggs

21. Use of non-classroom space for instruction such as gymnasiums and multi-use rooms should be considered to support physical distancing with cleaning between uses.

Non-classroom spaces such as gyms and elective classrooms can be used to support larger spaces for physical distancing with cleaning between cohort uses. Additional designated outdoor areas, including our outdoor amphitheatre, blacktop, track and field, will also be used to provide flexible spaces for students to learn outside of the classroom.

22. Meals will be served outside as much as possible or in classrooms instead of cafeterias or dining room with individually plated or bagged meals as much as practicable.

All cohorts will use their designated outdoor space for lunch & snack, or in the classroom if there is inclement weather. Choice lunch will be delivered to classrooms or designated areas. When lunch tables are used, they have a plexiglass protective barrier down the middle of the table if students face each other while physically distanced on the benches. Drinking fountains will not be used except for to fill water bottles.

23. Routines and schedules will be developed to enable students and staff to regularly wash their hands at staggered intervals.

[Handwashing protocols](#) and procedures are in place. The classroom sink and outdoor portable handwashing stations can be used for this purpose, in addition to sinks in restrooms. Additionally, CDC approved hand sanitizer is available in each classroom. Staff and students have been instructed on the proper way to wash hands and apply hand sanitizer.

24. All staff as well as all students in grades 3- 12 are required to wear face coverings while in the classroom and on campus unless there is a medical or behavioral contraindication. Students from grades TK - 2 are strongly encouraged to wear face coverings and should be supported and taught how to wear them properly.

Face coverings will be used at all times by staff and students, and they have been trained accordingly. The district will provide each person with 2 cloth face coverings

Principal: Brian Lynch

Assistant Principal: Ann-Marie Skaggs

and have disposable face coverings available for individuals who arrive at school without one. Students in all grade levels will be expected to wear face coverings, unless there is a medical or behavioral contraindication. Face shields will be used for individuals who are not able to wear face masks as appropriate. Teachers may use face shields with a drape when instructing from 6 feet distance. When teachers need to move in closer proximity to students, they will wear their face mask.

25. Training will be provided for staff and students on proper use of face coverings which will include instruction to minimize touching of face coverings.

Staff were trained on this protocol on August 20, 2020. Students will be provided videos to watch prior to returning to school on this protocol and will be instructed again by teachers once they return to campus.

26. Sharing of supplies, manipulatives, toys, sports equipment, and other learning and recreational materials will be limited and each student will have separate individually labeled boxes or cubbies.

Students will be provided individual supplies that will be kept in an individually labeled box or pouch. On occasions when classroom resources are shared, they will be cleaned between uses, and hands washed prior and after use. Students will use individually designated iPads. No sharing of materials between or amongst class cohorts.

27. Sharing of electronic devices, clothing, books and other games or learning aids will be avoided as much as practicable.

Students will use individually designated iPads. No sharing of materials between or amongst class cohorts. Students will not be permitted to share snacks or items brought from home.

28. Use of privacy boards or clear screens will be considered as much as practicable.

Every classroom will have a barrier for teachers to use when they must work with a

Principal: Brian Lynch

Assistant Principal: Ann-Marie Skaggs

student individually to provide support or assessments. Office space desks are fitted with a plexiglass barrier to add another layer of protection.

29. Non-essential visitors, including parent volunteers will be limited and essential workers will be required to adhere to all health and safety guidelines.

Visitors will adhere to physical distancing practices when entering the front office. Parents will be encouraged to communicate with the school by phone whenever possible rather than coming to the office. Visitors will not be permitted to enter the school campus beyond the front office. On-campus parent and/or community volunteers will not be utilized until further notice. Choice Lunch will be received and distributed by staff.

30. A [School Site-Specific Protection Plan](#) outlining the above measures is completed, posted and shared with all stakeholders and updated as state and local Public Health guidance dictates.

The School Site-Specific Protection Plan is completed and posted per current Public Health Guidelines. This document accompanies the [RUSD Reopening School Safety Plan 2020-21](#) the [RUSD Phases of Reintroduction](#), and the [Student & Family Handbook for COVID-19 Safety and Protocols 2020-2021](#).
