

## Del Mar School Supplies

The school will supply each student with supplies for classroom use (see the grade level supply lists below). These include: binder (standard 2 inch), dividers, paper, and pencil pouch with pencils, pens and a highlighter. They will also be provided with the spiral notebooks required for their classes.

In addition to the personal supplies, we will have classroom sets of the following items for students to use: calculators, colored pencils, markers, white-out and scissors. USB flash drives will be available upon request. Headphones will be available for classroom use if your child does not bring personal ones from home.

You are welcome to provide your child with a standard 2 inch binder or pencil pouch of their choice. Students are also welcome to bring personal headphones to school to use for class work.

For your reference, following are grade level school supply lists:
