## Technology Use Agreement - Elementary School

Please click on the linked form at the end of this Technology Agreement to fill out your permission requests - one per child.

### Part I: Educational Use Internet Account

RUSD provides students with access to the internet for the purposes of research, online learning programs, communication, and as a general resource for educational content. By giving permission, parents understand that access is designed for educational purposes. RUSD has CIPA compliant filters in place to help guard against exposure to inappropriate materials and RUSD has taken reasonable precautions to eliminate access to controversial material. Should a student commit any violation of the terms and conditions, his/her access may be revoked, school disciplinary action may be taken, and/or appropriate legal action may be pursued

1. *Acceptable Use:* The use of accounts must be in support of education and research and consistent with the educational objectives of RUSD. Students are expected to be safe, responsible, courteous, and appropriate.
2. *Unacceptable Use:* Students may not use, , or otherwise access, threatening, harassing, pornographic, or obscene material. Students should not download files, programs, or software updates over the school network or onto the school-issued laptop. They should also refrain from being off task on social media sites, online shopping or other media sites unrelated to curriculum during school hours.
3. *Digital Citizenship:* End users are expected to abide by the generally accepted rules of network etiquette. These include (but are not limited to) the following:
  - Be polite
  - Use appropriate language
  - Do not share personal information, including name, address, phone number, or birthdays of self, peers, parents, or staff.
  - Do not use the network in a way that would disrupt the use of the network by other users
  - Cite text and image resources that are used within school work

1. *Web-Based Social Networks:* RUSD students in grades K-8 will be utilizing web-based social media portals such as Edmodo to extend student's educational interactions. These types of services are controlled by classroom teachers in an online learning environment and are filtered using RUSD's content filtering system. Use of these programs directly ties to district curriculum goals related to digital citizenship and Internet safety.

1. *Security:* Do not use another individual's account. Attempts to log in as a system administrator or another student's information will result in cancellation of user

privileges. Please notify RUSD Technology department (415-383-1112) or a school administrator if you identify a security problem.

1. Vandalism: Vandalism is defined as any malicious attempt to harm or destroy devices or data of another user which includes, but is not limited to, the uploading or creation of computer viruses. Vandalism will result in cancellation of privileges.

1. Content Filters: As required by CIPA, RUSD utilizes an internet content filtering service called "Lightspeed", which allows on-line interactions to be scanned for inappropriate, objectionable, and/or harmful content.

1. Disclaimers: RUSD uses a network provided by the Marin County Office of Education. MCOE and RUSD make no guarantees for services provided and are not responsible for any damages suffered. Users must recognize it is impossible for the Reed Union School District to restrict access to all controversial materials, and may not hold RUSD responsible for materials acquired by students on the network.

## **Part II: Educational Use Apple Accounts**

This year, each student will have a personal Apple account, called an Apple ID. Apple IDs provide students access to important school materials including textbooks, documents, appropriate apps, iBooks, and iTunes U courses. Apple ID also provides students iCloud access so that content can be accessed from home devices. Visit the [Apple ID Parent Guide](#) for more information on Apple IDs and iCloud. Apple IDs for students under 13 include the following features:

- limited advertising
- disabled iCloud email by default
- account settings cannot be changed
- no credit card attached to the account
- parents or guardians are notified of account issues
- parental access to Apple support
- parental ability to set additional restrictions

### *Parent/Guardian Instructions For Creating Educational Use Apple ID*

For students under 13, **the child's parent or guardian must create the Apple accounts.**

1. Parents will receive an email from Apple with your student's temporary password and instructions for creating your student's Apple ID.
2. Follow the instructions on the email.
3. If your student is under 13 as of August 12, 2013, you will be asked to review the online [Parent Privacy Disclosure and Consent Notice](#).
4. By providing consent, you will activate your student's Apple ID.
5. *Optional:* You can set parental restrictions such as allowing changes to accounts, preventing in-app purchases, and designating allowable content and privacy settings. Please refer to the [Apple ID Parent Guide](#) to learn how to set device

restrictions. We strongly encourage you to take this step promptly after creating your student's Apple ID.

### **Part III – Educational Use Google Suite Accounts**

Students will need a Google Account in order to access Google Apps (i.e., Google Calendar, Google Sites, Google Docs, Google Drive). Google has already incorporated critical security features including student privacy, and data security. Student work can be created or uploaded for archiving, editing, live collaboration, and presentation. From home or from school, students can safely store their work, create documents, collaborate with classmates, and submit items for feedback. The Google suite also provides access to student website accounts and a calendar. While a Google account does provide students with an email address, ingoing and outgoing access will be restricted as follows:

*Reed Student Email Accounts:* Completely inactive; students have no access.

*Bel Aire Student Email Accounts:* Disabled at this time.

*Del Mar Student Email Accounts:* Del Mar students are issued an internal closed email account on the domain "rusdstudents.org". Each student will have a personal email account to facilitate use of Google Docs and provide a more protected means of online communication

#### *Guidelines for Students with Laptop usernames, passwords and Email Accounts*

- Students are responsible for keeping usernames and passwords confidential, and will not share this information with others.
- Students are responsible for their conduct and content that is created, displayed, stored or transmitted online
- Users may not send, save, view, forward, or create harassing or offensive content/messages. (Offensive material includes, but is not limited to, profanity, racist, sexist, discriminatory remarks, pornographic, sexually explicit material, sexual comments, jokes or images that would violate school policies.
- Users will refrain from sending spam or messages that contain viruses or other malicious content.
- Students agree to immediately notify a teacher of any unauthorized use of their password or account or any other breach of security.

#### *Monitoring and Filtering*

- Student safety is our highest priority. Mail that is sent within our district is monitored and filtered based on content.
- All student email passes through a Message Security system.
- Rules and filters are set up to monitor student email for profanity, harassment, and other inappropriate content.
- Student email that is identified as inappropriate will be blocked from delivery, and instead will be sent to school administration for review.

- Failure to comply with such terms and conditions may result in temporary or permanent loss of access as well as other disciplinary or legal action as necessary.

#### **Part IV –Educational Use of Electronic Devices**

RUSD provides students with access to a variety of electronic devices that include shared and individual computers and tablets. Students are required to follow proper care and handling guidelines. Failure to do so may result in disciplinary actions which include but are not limited to: parental contact, loss of privileges and restitution fees.

- *Ownership (K-8):* Laptops and iPads are the property of the Reed Union School District. They are provided for the exclusive use of Reed Union School District students and teachers.
- *Management:* All K-5 (*Reed & Bel Aire*) devices are to stay at school unless special permission is given. Laptops assigned to students in grades 6-8 (*Del Mar*) are entered into inventory and individually labeled. A student withdrawing from *Del Mar* must return the device before his/her last day. All *Del Mar* students will turn in laptops at the end of each school year.
- *Proper Handling (K-8):* Electronic devices are delicate learning tools and need to be treated with care. Students must agree to follow the care procedures listed below:
  - *Devices may only be used on a flat and stable surface.*
  - *Do not carry laptops while open.*
  - *Do not pick up laptops by the screen, or touch the screens with anything.*
  - *Keep magnets away from all devices.*
  - *Store devices in their proper cases or carts*
  - *Charge all devices at the end of the day so they are fully charged for the following morning.*
  - *Do not eat or drink while using an electronic device.*
  - *Protect devices from outdoor elements like sand, dirt, moisture, direct sunlight, and heat.*
  - *Shutdown, and unplug devices prior to cleaning. Only use cleaning supplies approved by the school.*
- *Consequences* for misuse of electronic devices may include the following:
  - Teacher warning
  - Parent contact by staff member
  - Loss of electronic device privileges
  - Detention or Suspension
