

A Message From Superintendent Dr. Nancy Lynch

Dear Parents and Guardians,

Our teachers and administrators have focused on providing deeper implementation of the rigorous California math standards to enable students to understand and demonstrate mathematic practices with more proficiency and mastery. All Transitional Kindergarten through eighth grade math teachers have worked with our math consultant, Kristin Gibson.

In the elementary grades, she is providing professional development in Cognitively Guided Instruction that builds on children's natural problem solving strategies. Additionally, teachers are learning how math talks, at all grade levels, can provide meaningful opportunities for students to mentally solve computation problems; talk about their strategies and make meaning of math; engage in mathematically convincing arguments; and critique and build on the ideas of their peers.

We invite you to join Kristin Gibson for a parent meeting to learn more:

**From the Foundation for Reed Schools:**

During the month of March, district parents will be contacting families who have not had the chance to donate to the Family Giving Campaign to answer any questions about The Foundation. Save your fellow parents the call and make your donation TODAY at [www.foundationforreedschools.com](http://www.foundationforreedschools.com)! **Please join those families who have contributed to The Foundation and help us reach 100% participation! Every dollar makes a difference.**

**Thank you to all of the families that have already pledged or donated!**
